

Lentaway Private Limited Company Profile

About Us

Lentaway Private Limited is a Zimbabwean energy and sustainability solutions company specializing in renewable energy, conventional energy project development, technical advisory services, and green technology innovations. The company delivers end-to-end solutions across the energy value chain, supporting governments, private investors, development partners, industries, commercial enterprises, and communities. Through its multidisciplinary expertise, Lentaway is committed to driving sustainable economic development, energy security, and climate resilience in Zimbabwe and across the region.

Our Vision

To be a leading provider of innovative, sustainable, and climate-resilient energy solutions that transform communities, businesses, and industries through reliable and efficient technologies.

Our Mission

To develop, deliver, and support innovative energy and green technology solutions that promote sustainability, energy efficiency, environmental stewardship, and economic growth.

Core Business Areas

Renewable Energy Solutions

- Utility-scale solar PV project development
- Commercial and industrial solar systems
- Residential solar solutions
- Hybrid and off-grid energy systems
- Solar water pumping systems
- Solar refrigeration and cold-chain solutions
- Solar thermal systems

Conventional Energy Technologies

- Hydro power project development
- Coal and thermal energy project development
- Energy infrastructure planning
- Technical and financial feasibility studies

Engineering & Technical Services

- Technical evaluations and due diligence
- Geotechnical Studies
- Hydrological and Toposurveys
- Engineering design and optimization
- Installation and commissioning
- Project management
- Operations and maintenance (O&M)

Energy Efficiency & Green Technologies

- Energy audits and management systems
- Energy-efficient appliances and equipment
- Electric vehicle charging infrastructure
- Climate-smart and green technology solutions

Research & Advisory Services

- Value chain diagnostics studies
- Market and industry assessments

- Investment advisory services
- Sustainability and climate resilience studies
- Policy and regulatory advisory support

Capacity Building

- Renewable energy training
- Technical skills development
- Certification programs
- Institutional capacity strengthening

Why Choose Lentaway?

- Experienced multidisciplinary team of engineers, scientists, technicians, and business professionals.
- Comprehensive project lifecycle support from concept development to operation and maintenance.
- Strong focus on innovation, sustainability, and climate resilience.
- Tailored solutions for industrial, commercial, agricultural, mining, and residential sectors.
- Commitment to quality, efficiency, and customer satisfaction.
